

Attachment 10

The facilitator gave the group the following directions for the prioritization exercise:

1. Pick one person at your table to post your table's "dots" in the general prioritization exercise.
2. You will be given a sheet listing the major issues identified during the Priority Issue discussion yesterday.
3. As a table, select your top 5-7 issues from this list, the ones you consider most important and highest leverage (most "bang for the buck").
4. We'll then post "dots" for the top 5-7 issues from each table and hold a general discussion of what the dot exercise tells us about actions that need to be taken and/or issues that need to be addressed between now and the next Summit.

Prioritized List of Issues

1. (13 votes) Joint voice/lobby/education effort directed at Legislature and other local politicians on funding and other solid waste issues
2. (12 votes) Funding issues: sources (stable and new), match requirements, firewall, LTCA 60/40
3. (11 votes) Figure out how we're going to track progress to CPG goals
4. (11 votes) Get message to other audiences (Beyond Waste/priorities) such as the Association of Washington Counties, Association of Washington Cities and other financial/policy decision-makers
5. (9 votes) Define true costs of recycling and landfilling
6. (5 votes) Templates for education outreach programs to apply statewide, particularly for outreach to ethnic communities
7. (5 votes) Education/outreach to conservative/rural communities with Beyond Waste vision
8. (5 votes) Training for grant officers: in technical aspect of their jobs and communication skills (to increase confidence/consistency)
9. (5 votes) Rule/regulation consistency from Ecology programs
10. (4 votes) Training for grant recipients: Yellow Book/eligible costs, administration of grants/forms, annual reports, measurement and evaluation
11. (4 votes) Proactive planning for next set of emerging issues

12. (3 votes) Grant officer "teams" for technical assistance to counties to capture different levels of expertise. Also get T A from other Ecology staff in addition to grant officers
13. (3 votes) Partnerships outside Summit audience - DOH, DOT, UTC, CTED
14. (2 votes) Sustainability training for other agencies and staff
15. (1 votes) Seminars/training in public/private partnerships
16. (0 votes) JLARC/Ecology/Grant Recipient joint meeting for Q&A and clarification
17. (0 votes) Industry mentor program for new hires, particularly for low-staffed counties.
18. (0 votes) Horizontal height bill
19. (0 votes) Don't fund "reinventing the wheel"- check to see if programs are already in existence [added just before voting]
